

# Share Your Story: AGU Narratives

AGU is on the cusp of our 100th anniversary. Through our Centennial, we step into the next era of scientific discoveries prepared to connect, inspire and amplify the voice and contributions of this community for decades—and even centuries—to come.

Centennial gives us the opportunity to celebrate the people behind Earth and space science. AGU Narratives allows us to share our collective history through personal stories, your stories.

# Five Steps to Adding Your Story to the AGU Narratives Community

---

## 1. Download the StoryCorps App

Download the StoryCorps App to your mobile device and create a free account. This account will be used to prepare, record, save, and share your interviews.

## 2. Prep

To record an interview, all you'll need is some prep time and a quiet place. You can choose your interview questions from question lists provided in the AGU Narratives community or write your own.

## 3. Have a Conversation

Follow the prompts in the app to begin recording and let the conversation flow! Listen closely, and let your chosen questions guide the discussion. Ask follow-up questions.

## 4. Enter Photo, Title, and Keywords

After the interview, you'll be prompted to take a selfie with your partner, and add a title, description, and keywords to your interview before uploading. Be sure to include the AGU100 keyword!

## 5. Share and Archive Your Interview

Share your recording on StoryCorps and have it archived at the Library of Congress.
